

Chrisal NV/SA
Priester Daensstraat 9
3920 Lommel, Belgium

Lommel, 20/11/2014

To whom it may concern;

Chrisal hereby declares that the bacteria inside the PIP products are safe to use around humans and animals. The bacteria are:

- classified as biosafety level 1 by the American Type Culture Collection (ATCC)
- of natural origin and listed at the ATCC bank
- not genetically modified (not GMO bacteria)
- screened and approved by OECD test facility on the following criteria:
 - Acute dermal irritation/corrosion OECD 404
 - Acute eye irritation/corrosion OECD 405
 - Skin sensitisation OECD 406
- food grade organisms (AAFCO, Canadian Domestic Substance List)
- Qualified Presumption of Safety by EFSA

When following the instructions for use none of the PIP products exhibit any toxic effect towards humans or animals and can be used in a wide range of industries, such as healthcare, food industry, agriculture and transportation. Furthermore, the PIP product can also be used in common households.

More information can be obtained on request at Chrisal headquarters.

Sincerely yours;

A handwritten signature in blue ink, appearing to read "Robin Temmerman", written over a faint circular stamp.

Dr. Robin Temmerman
CEO
